

The Weymouth Fair

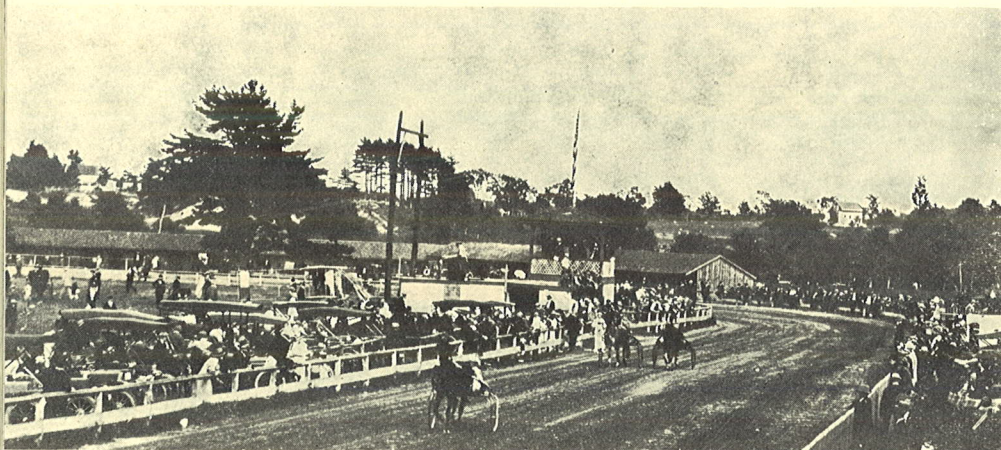

Early Motorcycle Racers

The Weymouth Agricultural and Industrial Society was formed in October 1864, and has for over 100 years, with the exception of wartime, maintained the grounds and operated an annual fair which has always been widely attended by the townspeople. This event is looked forward to by the numerous youth participating in 4-H Club exhibition work, and awards are given for their efforts.

Although the "old country fair" is rapidly diminishing as such, with the introduction of pari-mutuel betting on races, the trend toward crass commercialism cannot overshadow the romance and nostalgia that has been associated with "Fair Week" for so many years. Hopefully, our citizens can always find a bit of the old days during this yearly event.
