When you go food shopping, read the label. Choose healthy foods.

» Choose 100% whole grain breads. The first ingredient on the label should start with “whole,” like “whole wheat flour.”

» Choose cereals that are low in sugar and made from whole grains. Read the label and look for rolled oats, whole wheat, brown rice, rye, barley, triticale or buckwheat. A cereal could be made from one or all of these grains. Oatmeal is a good choice.

» Choose chicken and fish instead of beef.

For healthy snacking, keep these foods in the refrigerator:

» A bowl of fruit. Try slices of apple, fresh berries, orange slices, or cut up pineapple or mango. Keep the bowl covered with plastic wrap to keep the fruit fresh.

» A bowl of fresh vegetables. Try cucumber sticks, carrots sticks, celery sticks, broccoli, slices of red pepper and green pepper, or slices of zucchini.

» Slices or chunks of low-fat cheese.

» Non-fat or low-fat yogurt. It’s good alone or used as a dip for fruits and vegetables.

» Non-fat or low-fat milk. It’s healthier than juice.

Do these simple things to make each meal healthier:

» Add 1 to 2 slices of low fat cheese to a sandwich.

» Serve low-fat milk or soy milk with meals.

» Make meals that have more vegetables and beans and less meat.

» Broil, bake, grill or steam your food.

Other easy tips for healthy eating:

» Give kids water to drink during snack time and when they’re thirsty. Serve milk with meals.

» Serve a healthy breakfast, such as whole grain cereal or toast, along with fruit and milk.

» Turn off the TV during meals and enjoy your meals together.

» Remember that kids will do what you do. If you make healthy choices, they will too!
