SECOND FLOOR PLAN

TEEN ROOM

PERIODICALS

A wide-angle architectural rendering of a modern children's library interior. The space is bright and open, with a high ceiling featuring recessed linear lighting. The floor is covered in large, light-colored square tiles. On the left, a green wall features the word "CHILDREN'S" in large, orange, 3D block letters. Below this, there's a glass-enclosed area. The central area is filled with white, A-frame bookshelves and several small wooden tables with chairs. Large windows in the background offer a view of a green landscape. On the right, a green wall has a framed abstract painting. A glass-enclosed area on the far right contains a wheelchair. Several children and adults are depicted throughout the space, giving a sense of scale and activity.
