Open Agenda Items

- Title 1: form came out a while ago but parents might need more information especially if you are waiting for/need more signed consent
- Conferences: I know with a large school/classes it is difficult but many parents still need to get in to see teachers. Is there any way around this?
- Teacher emails: the district website is so difficult to navigate. I know they are looking into making changes, but could students get a list of each of their child/Children's team teacher's email addresses in the meantime? (This could also help with frustration over the lack of conferences)
- I saw on Facebook some parents discussing their child's buses being called late or not called at all resulting in kids missing the bus. Wondering if you could offer clarification on this so that if we see this issue come up again we can provide insight for those who are frustrated.

Formal budgeting process - Human Resources, teacher positions.
