

## **Stella Tirrell**

Stone entrance – rebuild the same way - \*note-an entire pier is missing – is this entrance historic?

Remove stone wall on right side further up walk into park ( stone to be used in entry as a match)

Remove, sand blast and paint iron gates and rails – replace missing piece of iron rail

Remove section of chain link fence - back to the tree

Install a new concrete apron – reset Stella Tirrell plaque

Sign somewhere on Central Street side of Park- possibly adjacent to parking

Resurface the 3 existing tennis courts for tennis, basketball and street hockey or resurface 3 tennis courts

Repair the existing chain link fence around the tennis courts and replace missing section. Add new fence to match existing fence in between each court and include opening from outside into each court area (if not all tennis courts)

Remove 2 existing benches in bad condition and replace with 4 new

Remove existing basketball court-grade, loam and seed

Remove existing berm around play structure-grade, loam and seed. Install mulch to define play area

### *Babe Ruth Issues*

Existing parking is 18 plus 1 HP – need additional?

Install asphalt (stone dust) driveway up to concessions building-curb cut

Hood on backstop-all new backstop

Remove existing team benches in bad condition and replace with new team benches (covered?)

Remove existing bleachers in bad condition and replace with new bleachers-how much seating is needed?

Batting cages

Field work

### **Weston Park**

Grub, pressure wash and paint wall

Grub and pressure wash both sets of concrete stairs (to the ball field and to Franklin Street)

Repair fence at ball field

Clear and prune hillside to the right of the wall

Install a slide

### **Great Hill**

Remove existing posts and replace with an interpretive panel depicting view/harbor islands

Clear and prune picnic area

Power wash concrete picnic area

Clear and weed around entire guardrail from the entrance to the picnic area and around to the water tower

Clear and weed the granite curb around the island

Clear and weed the entire chain link fence from the entrance and continue around the water tower

Paint 2 ADA parallel parking spaces adjacent to the picnic area and accessible to the opening in the guardrail

Grade loam and seed the rough area on the left side and bottom of the hillside so that it matches the existing hillside area

Clear and prune additional #feet down the hillside-grade loam and side

Clear and prune the shelf back 20 feet behind the retaining wall

### **Great Esker**

Repair the fence from the corner to the group of birch trees (under the sign)

Replace the fence from the corner to the existing gate

Install a new chain link fence across the bottom of the existing driveway in the asphalt

Remove the granite curb

Define asphalt parking area with marked parking spaces including appropriate ADA marking-Clear and asphalt up to the new chain link fence and beyond for approximately 12 inches so that the fence is set in asphalt-create an asphalt bump out for pedestrian access around the gate when the gate is closed-how much parking?

Clear the hillside along RT 3A from the intersection to the end of the asphalt-loam and seed affected areas
