Beginning on Monday, November 13, 2023, a secondary crew will be in the same area raising water and sewer castings for access for maintenance. The same work crew is scheduled to begin installing conduits for traffic signals and street lighting on Tuesday, November 14, 2023. This work is anticipated to last throughout the week. A detour will not be required, however, to reduce impacts as much as possible, it is encouraged that motorists seek alternate routes and expect brief traffic delays to facilitate efficient work. Follow posted detour signage and instructions from the Police Detail Officers. The entire roadway reconstruction process is planned to be completed by mid-November 2023, weather permitting. **Ambulances and school buses will be given priority access through the work zone.**
