25% DESIGN

Discussion Points from December 5th Public Meeting

- Parking Count – is 83 spots too much?
- Why the reduction in tennis courts?
- Stabilization of elements over the underlying peat
- Seniors are looking for pathways, benches and places to walk/jog
- Effects of lighting

Choices – Fitness Loops

Fit-Trail

Enjoy Every Move You Make!

HERE'S HOW IT WORKS

- FIT-TRAIL is a series of exercise stations located along a trail or in one central location.
- You are at the **INFORMATION STATION** of the system.
- Each exercise station has an **EXERCISE INSTRUCTION** sign and **EXERCISE APPARATUS**.
- Do each exercise **SLOWLY** and **CAREFULLY** according to your physical condition and ability.
- Proceed from station to station and perform the exercises as
- You can monitor your heartbeat by using the **TARGET HEART BEAT RANGE GUIDES**.
- **TAKE YOUR 10 SECOND PULSE RATE BEFORE STARTING THROUGH THE SYSTEM.** This rested pulse rate will be used during the cool down phase of the system. At the end of your workout, cool down until your pulse rate returns to its beginning level.
- All exercises are for both **MEN and WOMEN**.
- Be sure to consult your doctor before starting any exercise.
