Face Behind the Badge

"Face behind the Badge" utilizes social media through Facebook and Twitter. The Weymouth Police Department will profile police officers each month. The profile will consist of pictures and an interview about the officer. During the officer's profile month there will be one shift where the tour of duty will have a constant twitter feed of all the officer's action. The purpose of this program is to engage the community in a interacting way.

Weymouth Police Department is committed to community excellence.
