I. Overview

The following is the Municipal Aggregation Plan (“Plan”) for the Weymouth Community Electricity Program (“Program”) of the Town of Weymouth (“Town,” “Municipality” or “Weymouth”), developed consistent with the municipal aggregation statute, G.L. Chapter 164, Section 134.

By offering the Program, the Town will become a Municipal Aggregator. Through the Program, the Town will provide new electricity supply options to Weymouth residents and businesses. The Electric Distribution Company, National Grid, will remain responsible for distribution of electricity, maintaining electricity infrastructure and responding to power outages. This Plan does not obligate the Town to pursue aggregation if conditions are not favorable.

The Program enables the Town to select the characteristics of the electricity supply options, also known as products. The Program will be open to all residents and businesses in the Town, and it will offer a default product and optional products. At launch, all Eligible Customers¹ will be automatically enrolled in the Program’s default product unless they exercise their right to opt out or choose an optional product. Once the Program is operational, participating residents and businesses would retain the right 1) to change to an optional product or 2) to opt out of the Program with no penalty and to choose any other electricity supplier or stay with the Basic Service supply from the Electric Distribution Company. Residents and businesses that do not initially participate in the Program may join the Program at any time.

A key focus of the Program will be to provide electricity options that match the diverse needs of our community, which include:

- Using and supporting the growth of renewable electricity.
- Negotiating the best terms and conditions for electricity supply: It is important to note that the Program cannot guarantee prices will be lower than the National Grid Basic Service rates at all times, because Basic Service rates change frequently and future prices are unknown.
- Supporting electrification, particularly for heating and transportation currently powered by fossil fuels.

The Town of Weymouth will develop and implement the Program as described in this Plan. The Plan will comply with all requirements of the Commonwealth governing the competitive supply market including notification requirements regarding periodic changes in Program price. Before being implemented, the Plan must be reviewed and approved by the Massachusetts Department

¹ Eligible Customers shall include consumers of electricity located within the geographic boundaries of the Town who are (1) Basic Service customers; (2) Basic Service customers who have indicated that they do not want their contact information shared with competitive suppliers for marketing purposes; or (3) customers receiving Basic Service plus an optional green power product that allows concurrent enrollment in either Basic Service or competitive supply. The following customers shall be excluded as Eligible Customers: (1) Basic Service customers who have asked their electric distribution company to not enroll them in competitive supply; (2) Basic Service customers enrolled in a green power product program that prohibits switching to a competitive supplier; and (3) customers receiving competitive supply service.

of Public Utilities (the “Department”). The Department will ensure that the Program satisfies all of the statutory requirements, including that the Plan provides universal access, a reliable power supply and equitable treatment for all customer classes.

II. Process to Develop and Approve Plan

This Plan was created through the following process:

1. **Passage of authorizing resolution:** The municipal aggregation statute requires that the Town obtain approval from the local governing authorities before initiating the development of the Plan. The Town satisfied the local approval requirement when the Town Meeting voted to initiate the process of municipal aggregation on March 6, 2023. Please see **Attachment B** for a copy of authorizing resolution.
2. **Signed agreement with Town’s aggregation consultant:** Weymouth selected Good Energy, L.P. (“Good Energy”) as its aggregation consultant to assist in developing this Plan, managing the supply procurement, developing and implementing the public education plan, interacting with the Electric Distribution Company, National Grid, and monitoring the supply contract.
3. **Creation of a Draft Plan & Public Review:** Weymouth prepared a Draft Plan and made it available for public review beginning on TBD through TBD. Copies of the Plan were available via TBD.
4. **Public hearing on Draft Plan:** Weymouth held a public hearing to receive comments from the public on the Plan on TBD. Please see **Attachment B** for copies of comments received and responses from the Town.
5. **Consultation with Department of Energy Resources & Other Parties:** The aggregation statute also requires that the Town consult with the Department of Energy Resources (“DOER”) in developing the Plan. The Town submitted a draft of the Plan to DOER in TBD, and Weymouth municipal officials and their Aggregation Consultant met with DOER to discuss that draft on TBD.

Attendees at the TBD meeting included: TBD. Please see **Attachment C** for the Consultation Letter from DOER.

The Town has also provided an opportunity for input from the Electric Distribution Company, National Grid. The Aggregation Consultant provided the Electric Distribution Company with a draft model Plan that reflects prior input from the Electric Distribution Company and will continue to provide an opportunity for further comment from the Electric Distribution Company on the Plan.

6. **Local approval of Plan:** TBD.

7. **Submission of Final Plan to Department of Public Utilities:** Before being implemented, the Plan must be reviewed and approved by the Department. The Department will ensure that the Program satisfies all of the statutory requirements, including that the Plan provides universal access, a reliable power supply and equitable treatment for all customer classes.

III. Electricity Supply Product Options

The Program will offer a default and optional electricity supply products. Eligible Customers are automatically enrolled in the default product unless they opt-out of the Program or affirmatively choose one of the optional products.

All products will include the minimum amount of renewable energy resources as required each year by the Commonwealth of Massachusetts.² Some products will include additional renewable energy resources that exceed the minimum amount required by the Commonwealth. All purchases of additional renewable energy in the products will be certified through Renewable Energy Certificates (RECs), the instrument used to trade and track renewable energy generation.³

The products may vary based on the amount of renewable energy, in the form of RECs, and based on whether the price is time-varying. Time-varying products will require a customer to have metering technology that can record and report when usage occurred.

The choices for renewable energy may include:

- The minimum amount of renewable energy resources required by the Commonwealth
- Up to two different levels of renewable energy resources that each exceed the minimum amount required by the Commonwealth

The choices for time-varying prices may include:

1. Non time-varying: The same price applies to usage at any time.
2. Time-varying: Multiple time periods, with each time period having a corresponding price at which usage during each period will be billed. Time periods will be limited by the options available through the Electric Distribution Company billing system.

Each of the three choices for renewable energy resources could be combined with each of the two choices for time-varying prices, producing a total of up to six products. Within these choices, at launch, the Program will offer the following electricity supply products, as described below:

Default Product: The default product, Weymouth Standard, will include more RECs than

² For example, in 2023, the Commonwealth of Massachusetts requires that all electric supply products include a minimum of 59% renewable energy resources. This is comprised of 22% MA Class I sources and 37% other sources. Detail on these sources is available at <https://www.mass.gov/service-details/program-summaries>.

³ RECs enable the trading and tracking of renewable electricity. For every one megawatt-hour (MWh) of renewable electricity that is generated and fed onto the electricity grid, one REC is created.

the minimum amount required by the Commonwealth, up to 100% total RECs. The goal for this product is to include as many additional RECs as possible, at an affordable price that will result in high participation. At launch, Weymouth Standard is expected to include RECs in an amount that is 10% greater than the minimum amount required by the Commonwealth, with the exact amount to be determined by the Mayor or designee(s) of the Mayor after the receipt of bids from Competitive Suppliers. The price will be non-time varying. The percentage of RECs may change after it is established in the initial bid. Customers will be notified before any such change.

Optional Products:

- Product with additional RECs: The Program will offer an optional product that exceeds the minimum amount of renewable energy resources required by the Commonwealth by including 100% RECs, and that will be non-time varying, called Weymouth Plus. The goal of Weymouth Plus is to provide an option with the most RECs in the Program.
- Product with no additional RECs: The Program will offer one optional product with the minimum amount of renewable energy resources required by the Commonwealth, and that is non-time varying, called Weymouth Basic. The goal of Weymouth Basic is to provide an option that costs less than the default product, Weymouth Standard.

All RECs for additional renewable energy above the minimum amount required by the Commonwealth will qualify as Massachusetts Class I eligible pursuant to 225 CMR 14.00 which includes generation from solar, wind, anaerobic digestion or low-impact hydro located within or delivered to New England. Any new products the Town seeks to make available to Program participants, in addition to the products described in the Plan, will be subject to Department approval.

IV. Plan Elements

IV.a. Organizational Structure

The organizational structure of Program will be as follows:

Mayor: The Program was authorized by the Mayor, the elected representatives of the Town. The Plan will be approved and overseen by the Mayor or designee of the Mayor. The Mayor or designee(s) of the Mayor will be responsible for making decisions and overseeing the administration of the Program with the assistance of the Aggregation Consultant. Prior to the receipt of bids from Competitive Suppliers, the designee(s) of the Mayor shall be specifically authorized to enter into an Electric Service Agreement (“ESA”) under parameters specified by the Mayor.

Aggregation Consultant: The Aggregation Consultant will manage certain aggregation activities under the direction of the Mayor or designee of the Mayor. The Aggregation Consultant’s responsibilities include assisting the Town to obtain regulatory approval of the Plan, strategizing

for and managing the procurement of electricity supply, developing and implementing the public education plan, interacting with the Electric Distribution Company, monitoring the supply contract and reporting to the Town, maintaining the Program website, providing Program customer support, including addressing customer complaints, producing regulatory reports, and managing supplemental filings with the Department (e.g., Plan amendments). The Town has selected Good Energy, L.P. to provide these services for an initial term.

Competitive Supplier: The Competitive Supplier will provide power supply for the aggregation, provide customer support including staffing a toll-free number for customer questions about billing, to enroll, change product or opt-out and to fulfill other responsibilities as detailed in the ESA. The Competitive Supplier shall be required to enter into an individual ESA with the Town under terms deemed reasonable and appropriate for the constituents of the Town by the Mayor.

Buying Group: The Town Manager may elect to join with other municipal aggregators in combining the Town's load for purposes of soliciting bids from Competitive Suppliers. The purpose of the Buying Group is to allow municipal aggregators to capture the benefits of collective purchasing power while retaining full municipal autonomy. The Town shall be represented by the designee(s) of the Mayor on the executive committee of the Buying Group. The Town, through its designee as specifically authorized by the Mayor, shall select a Competitive Supplier based on the needs of the Town and shall not be required to select the same terms or Competitive Supplier as other members of the Buying Group.

IV.b. Operations

Following approval of the Plan by the Department, the key operational steps will be: 1) issue a Request for Proposals (RFP) for power supply and select a Competitive Supplier; 2) implement a public education plan for Program launch, including the Opt-Out Documents, 3) enroll Eligible Customers and provide service, 4) provide on-going customer education, including quarterly notifications, and 5) annual reporting.

These steps are described in the sections below.

IV.b.i. Issue an RFP for power supply and select a Competitive Supplier

The Town, under direction of the Mayor or their designee(s), will solicit bids from leading Competitive Suppliers, including those currently supplying municipal aggregation programs in New England and other states. In seeking bids from Competitive Suppliers, the Town may solicit bids for its load individually or as part of a Buying Group with other municipal aggregators. The RFP will require that the supplier satisfy key threshold criteria, including:

- Licensed by the Department
- Strong financial background
- Experience serving the Massachusetts competitive market or municipal aggregation

- programs in other states
- Demonstrated ability, supported by references, to provide strong customer service.

In addition, Competitive Suppliers will be required to agree to the substantive terms and conditions of the ESA, including, for example, the requirement to:

- Provide all-requirements power supply at a specified price
- Allow customers to exit the Program at any time with no charge
- Agree to specified customer service standards
- Comply with all requirements of the Department and the Electric Distribution Company

Competitive Suppliers interested in responding to the RFP will be required to execute a Confidentiality Agreement. Upon execution of the Confidentiality Agreement, the Town will share available load data necessary for bidding.

Competitive Suppliers and the Town will enter into negotiations to produce ESAs acceptable to both Town and Competitive Suppliers.

The Town will solicit bids from Competitive Suppliers that meet the threshold criteria and agree to the terms and conditions of the ESA. The Town will request bids for a variety of term lengths, for firm pricing or pricing strategy, and for power and RECs from different sources.

The Mayor, or their designee(s), will determine the appropriate amount of RECs to be included with the default product based upon their assessment of market conditions and what would be in the best interest of retail electric customers at the time prices are set. The Town will require bidders to identify the technology, vintage, and location of the renewable energy generators that are the sources of the RECs. It will also require that the RECs be created and recorded in the New England Power Pool Generation Information System. The Town may seek bids from a variety of renewable energy sources and will choose the best combination of environmental benefits and price.

Prior to delivery of the bids, the Mayor shall provide authorization to their designee(s) to select a bid and enter into an ESA based upon parameters the Mayor deems appropriate for its constituents. In consultation with its Aggregation Consultant, the designee(s) of the Mayor, will evaluate the bid results.

Whether the Town conducts an individual solicitation or participates in a solicitation with a Buying Group, at the conclusion of the bidding process it will select a Competitive Supplier offer appropriate for its retail electric customers. Participation in the Buying Group shall not require the Town to select the same price, terms or Competitive Supplier as other members of the Buying Group. If none of the bids is satisfactory, the Mayor or their designee(s) will reject all bids and repeat the solicitation for bids as often as needed until market conditions yield an offer that is acceptable. The Town will only accept a bid that enables it to launch the Program with an offer that meets the criteria set by its municipal officials. The Town will only enter into an ESA with a Competitive Supplier that is fully consistent with its Department-approved Plan and

Department directives.

IV.b.ii. Implement public education plan for Program launch including Opt-Out Documents

Once a winning Competitive Supplier is selected, the Town will implement a comprehensive public education plan.

A public education plan is required to fully inform and educate potential customers and participants in advance of automatic enrollment in the Program, to raise awareness and provide retail electric customers with information concerning their opportunities, options and rights for participation in the Program.

The Town will develop a detailed timeline for the public education plan as the launch gets closer, and the public education plan for the launch will include both broad-based efforts aimed at promoting awareness of the Program across the entire community and opt-out documents (“Opt-Out Documents”) mailed to every Eligible Customer.

- Broad-based efforts: The broad-based efforts will take advantage of traditional media, online media, and events to ensure as many people as possible learn about the aggregation. See **Attachment D** for detail on the broad-based efforts and an initial timeline.
- Opt-Out Documents: Opt-Out Documents will be mailed to every Eligible Customer. The Opt-Out Documents will have the appearance of an official communication of the Town, and it will be sent in an envelope clearly marked as containing time-sensitive information related to the Program. The Opt-Out Documents will include:
 - an Opt-Out Notice that will: (1) introduce and describe the Program; (2) inform Eligible Customers of their right to opt out and that they will be automatically enrolled if they do not exercise that right; (3) explain how to opt out; and (4) prominently state all Program charges and compare the price and primary terms of Town's competitive supply to the price and terms of the current Basic Service offering provided by the Electric Distribution Company. The Department-approved notice will indicate that because of market changes and differing terms, the Program cannot guarantee savings compared to Basic Service over the full term of the Program. The Opt-Out Notice will be made available in English.
 - the Language Access Document, which will contain a message in 26 languages encouraging Eligible Customers to have the notification translated and providing the Program website address and toll-free number.
 - an opt-out reply card, and
 - a postage-paid return envelope.

Exemplar copies of the Opt-Out Documents are included in **Attachment A**.

The Town has requested a waiver to label the Contract Summary Form as the Product Summary Form, and to include in the Opt-Out Notice and Renewal Notice all of the information included on the Department’s Contract Summary Form Exemplar Product Summary Forms are included in **Attachment A**. In prior Orders, the Department has granted the Town’s request for a waiver of this requirement, subject to filing for final approval by the Department.

The Opt-Out Documents will be designed by the Aggregation Consultant and the Town and printed and mailed by the Competitive Supplier, who will process the opt-out replies. Eligible Customers will have 33 days from the date of mailing the Opt-Out Documents to return the reply card if they wish to opt out of the Program and the Opt-Out Notice shall identify the return date by which the reply envelope must be mailed and postmarked. The Competitive Supplier shall allow an additional 3 days from the return date for receipt of the opt-out replies before initiating automatic enrollments in the Program (i.e. 37 days total from mailing before enrollment).

The Program will ensure that Eligible Customers with disabilities and limited English proficiency have full access to the Program information and are informed of their rights and obligations under the Program. See **Attachment D** for detail on how the Program will reach Eligible Customers with limited English proficiency and persons with disabilities.

The Program materials will include required disclosures, including that savings cannot be guaranteed, and other notices as described in **Attachment D**.

The Competitive Supplier may only communicate with Program participants and/or use the lists of Eligible Customers and Program participants to send Department- approved educational materials, opt-out notices (i.e., Opt-Out Documents), or other communications essential to the operation of the Program. Such lists may not be used by the Competitive Supplier to market any additional products or services to Eligible Customers or Program participants.

In the event the Town seeks to inform customers currently on competitive supply about the Program, the Town shall: 1) include in any materials a disclosure that such customers may be subject to penalties or early termination fees if they enroll in the Program; and 2) provide the Department with a copy of any materials it proposes to send to competitive supply customers no later than ten days prior to the proposed date of issuance.

IV.b.iii. Enroll customers and provide service

1. Enroll Customers: After conclusion of the opt-out period (i.e., no sooner than 37 days from the date of the mailing of the Opt-Out Documents), the Competitive Supplier will enroll into the Program all Eligible Customers who did not opt out. All enrollments and other transactions between the Competitive Supplier and the Electric Distribution Company will be conducted in compliance with the relevant provisions of Department regulations, Terms and Conditions for Competitive Suppliers, and the protocols of the Massachusetts Electronic Business Transactions Working Group.

2. Provide Service: Once Eligible Customers are enrolled, the Program will provide all-requirements power supply service. The Program will also provide ongoing customer service, maintain the Program web site, and process new customer enrollments, ongoing opt-outs, opt-back-ins, and customer selections of optional products. Prior to the expiration of the initial ESA, the Town intends to solicit a new power supply agreement.

When new customers open an account in the Town, they will receive the Opt-Out Documents consistent with Section IV.b.ii. At the end of the opt-out period they will be enrolled in the Program unless they elect to opt-out. New customers may proactively enroll by contacting the Program directly. Customers proactively enrolling will be sent a Product Summary Form for their product.

IV.b.iv. Provide on-going outreach and education, including quarterly disclosure labels:

The primary vehicle for providing continuing information will be the Program website which includes a translation function and assistive technologies to ensure communications to residents with limited English proficiency and visual or auditory impairment. Changes in prices and REC content for Program products will be communicated through postings on the Program and Town websites, media releases, social media, a physical posting in Town buildings and a direct mail notice (See Section IV.d for changes due to a new or amended ESA, including a regulatory event and Section IV.g. for changes due to Program termination). The Program website will be updated quarterly with the then-current large business Basic Service rates and every six months with the then-current residential and small business Basic Service rates. See **Attachment D** for additional detail regarding on-going education and outreach.

As part of its ongoing service, the Town will provide the quarterly disclosure of information required by G.L. c. 164, § 1(F)(6) and 220 C.M.R. § 11.06. The Town requested a waiver from the requirement that the disclosure label be mailed to every customer and sought permission from the Department to provide the information through alternative means. The Town will make the required disclosures by posting disclosure labels on the Program website on a quarterly basis with notification to customers of the posting through the alternate means⁴ described below:

- Each quarter, the Town will publicize the availability of the disclosure label on the Town website with a link to download a PDF of the disclosure label along with explanatory text such as:

“Weymouth Community Electricity, the Town’s electricity Program, has posted the latest Electricity Disclosure Label in the Resources section on the Program website. The Label provides detail on the energy mix for all Program options. The Label is updated quarterly, and the most recent Label is always available on the Program website:

www.WeymouthCommunityElectricity.com or by request at [Customer Support #].”

- For Quarter 1, the Town will issue a press release with a link to the Program website
- For Quarter 2, the Town will post a notice on the Town’s primary social media account

⁴ The Plan, containing this alternative disclosure strategy, will be posted on the Program website.

- For Quarter 3, the Town will post physical notice and disclosure label at the Weymouth Elderly Services, the Town’s library branches and the Town bulletin board
- For Quarter 4, the Town will submit a notice to the Town’s local access TV station

All notices listed will contain, at a minimum, the same explanatory text quoted above.

Collectively, these notifications will cover a diverse range of communication channels and serve to reinforce awareness that the latest label can always be found on the Program website or via phone request.

The notifications of the quarterly disclosure will be made by in May for Quarter 1, in August for Quarter 2, in November for Quarter 3 and in February for Quarter 4.

In prior Orders, the Department has granted the request for a waiver from the information disclosure requirements, subject to the Town’s demonstration in each Annual Report to the Department that it has provided the same information to Program participants as effectively as the quarterly mailings required under 220 CMR 11.06(4)(c).

IV.b.v. Annual Report: On an annual basis, the Town will report to the Department and the DOER on the status of the Program, including the number of customers enrolled and opting-out, kilowatt-hour usage, customer savings, participation in optional products, and such other information as the Department or DOER may request.

IV.c. Funding

All of the costs of the Program will be funded through the supply charges paid by Program participants through the ESA. The then-current Program supply charges may be found on the Program website, www.WeymouthCommunityElectricity.com, on the Product Summary Forms on the Program website, and by calling the Competitive Supplier.

The primary cost will be the charges of the Competitive Supplier for the power supply, which will include the cost of any additional RECs above the minimum amount of renewable energy resources required by the Commonwealth. This will also include the cost of required mailing to Eligible Customers and Participating Customers. These charges will be established through the solicitation for a Competitive Supplier.

The administrative costs of the Program will be funded through a per kilowatt-hour Commission Fee that will be paid by the Competitive Supplier to the Aggregation Consultant, as specified in the ESA. This Commission Fee will cover the services of the Aggregation Consultant as described in Section IV.a. Organizational Structure. This charge has been set for the initial term of the Aggregation Consultant’s contract at \$0.001 per kilowatt hour.

IV.d. Rate Setting and Other Costs to Participants

As described above, the power supply charges of the Program will be set through a competitive

bidding process and will include the Commission Fee and applicable taxes pursuant to the ESA. The Commission Fee was set through a competitive selection process. Prices, terms, and conditions may differ among customer rate classes, which rate classes will be the same as the customer rate classes of the Electric Distribution Company. Customers will receive pricing as defined in Section V.b. Equitable Treatment of All Customer Classes. The frequency of price changes will be determined through the competitive bid process. Prices may change as specified in the winning bid or as the result of the Town entering into an amended or new ESA.

At least thirty days prior to the effective date of a price change, Program participants will be informed through postings on the Program and Town websites, media releases, social media, a physical posting in Town buildings and a direct mail notice containing the new price, term, fees, renewable energy content⁵ for Program products and applicable price, term, fees and renewable energy content of their current product. Such notifications will comply with all Department language access and design requirements and will inform Program participants that they may opt out of the Program at any time and return to Basic Service at no charge. The direct mail notices will be sent in a clearly marked envelope indicating that it contains important information from the Town regarding customer's participation in the Program.

If the Town seeks to change the voluntary renewable energy content for any product ("product change"), it also will notify Program participants of the product change as it would for a price change. Customers enrolled in an optional opt-in product that will change voluntary renewable energy content in the new ESA will be informed that they must affirmatively re-enroll in the new optional product (or affirmatively enroll in the default product or other optional product) or they will be returned to Basic Service. Customers enrolled in the default opt-out product or an optional opt-in product that will maintain the same voluntary renewable energy content in the new ESA will be notified that they will be renewed in their current product under the new ESA unless they opt out.

If the Town seeks to change the Competitive Supplier, it also will notify Program participants of the change as described above.

The direct mail notification for the price change or product change ("Change Documents") will have the appearance of an official communication of the Town and will be sent in an envelope clearly marked as containing time-sensitive information related to the Program. The Change Documents will include:

- **Renewal Notice:** the Renewal Notice is substantially similar to the Opt-Out Notice, particularly in that it will identify price, term and renewable energy content of the current product in which the customer is enrolled, the product into which the customer will be enrolled if the customer takes no action, and the price, term and renewable energy content of the new product or products(s) available via the Program. The Renewal Notice has two versions, one for customers that will automatically renew in their current product at the

⁵ For customers enrolled in an optional opt-in product that will change voluntary renewable energy content in the new ESA, the "new price, term, fees and renewable energy content" will be National Grid Basic Service. The mailer will also include such information for the new Program products.

new price and one for customers that will be returned to Basic Service unless they make an affirmative selection.

- Language Access Document, which will contain a message in 26 languages encouraging Eligible Customers to have the notification translated and providing the Program website address and toll-free number.

The Program will ensure that Eligible Customers with disabilities and limited English proficiency have full access to the Program information and are informed of their rights and obligations under the Program. See **Attachment D** for detail on how the Program will reach Eligible Customers with limited English proficiency and persons with disabilities.

If there is a change in law (as defined in the ESA) that results in a direct, material increase in costs during the term of the ESA, the Town and the Competitive Supplier will negotiate a potential change in the Program price. Any resulting price change shall be communicated to Program participants as described in the Change Documents above. The Town shall also notify the Department's Consumer Division prior to implementation of any change in the Program price related to a change in law. Such notice shall be provided to the Department no less than ten days prior to notifying customers and will include copies of all media releases, postings on the Town and Program websites and any other communications the Town intends to provide to customers regarding the price change.

In the event an ESA is terminated as the result of a dispute over a change in law, and the Municipality does not obtain a replacement ESA, the Town will follow the procedures for termination of the Program under Section IV.g Extensions or Termination of the Program in the Plan. In the event the Municipality obtains a replacement ESA, it will follow the procedures for termination of the existing ESA and extension of the Program under this section and Section IV.g Extensions or Termination of the Program in the Plan.

The Program affects only the electricity supply charges of the customers. Delivery charges will be unchanged and will continue to be charged by the Electric Distribution Company in accordance with tariffs approved by the Department. Discounts provided by the Electric Distribution Company, including low-income discounts provided to low-income customers, are not impacted by the Program.

Participants in the Program will receive one bill from the Electric Distribution Company that includes both the electricity supply charge of the Competitive Supplier and the delivery charge of the Electric Distribution Company. Any applicable taxes will be billed as part of the Program's electricity supply charge. Customers that provide their Tax-Exemption Certificate to the Competitive Supplier will be exempt from the collection of applicable taxes.

IV.e. Method of Entering and Terminating Agreements with Other Entities

The process for entering, modifying, enforcing, and terminating all agreements associated with

the Plan will comply with the municipal charter, federal and state law and regulations, and the provisions of the relevant agreement.

At least 90 days prior to the end of the term of the initial ESA, the Town, under the direction of the Mayor or their designee(s), will solicit bids for a new supply agreement and plans to continue the Program with the same or new Competitive Supplier.

Although the Town is not contemplating a termination date, the Program could be terminated upon the termination or expiration of the ESA without any extension or negotiation of a subsequent supply contract, or upon the decision of the Mayor to dissolve the Program effective on the end date of the existing ESA.

The Town plans to use the same process described in Section IV.b. Operations of this Plan to solicit bids and enter into any subsequent ESAs with the assistance of its then-current Aggregation Consultant. At least thirty days prior to the effective date of a price or product change in a subsequent ESA, Program participants will be informed through posting on the Program and Town websites, media releases, social media, a physical posting in Town buildings and a direct mail notice containing the new price, term, fees, renewable content and applicable price, term, fees and renewable energy content of their current product, as described in Section IV.d. Rate Setting & Other Costs to Participants. The Town will satisfy all notice requirements established by the Department for price and product changes, including any timing and mailing requirements. The transfer of customers from the existing supplier to the new supplier will be coordinated with the Electric Distribution Company using established Electronic Data Interchange (EDI) protocols.

If the Mayor determines that it requires the services of an Aggregation Consultant after expiration of the existing agreement with Good Energy, the Town Manager will evaluate opportunities to solicit an Aggregation Consultant individually or as part of a group of municipalities aggregating the electric load of their respective customers. The Town Manager will solicit proposals for, and evaluate, potential Aggregation Consultants using a competitive procurement process or alternative procedure which the Town Manager determines to be in the best interest of its customers and consistent with all applicable local, state and federal laws and regulations.

IV.f. Rights and Responsibilities of Program Participants

All participants will receive all-requirements power supply, as noted in Section IV.b.iii. All participants will have the right to opt out of the Program at any time without charge. They may exercise this right by any of the following: 1) calling the toll-free number of the Competitive Supplier; 2) contacting the Electric Distribution Company and asking to be returned to Basic Service; or 3) enrolling with another Competitive Supplier.

All participants may change Program products at any time, without penalty, by contacting Program customer support or the Competitive Supplier.

All participants will have available to them the consumer protection provisions of Massachusetts' law and regulations, including the right to question billing and service quality practices. Customers will be able to ask questions of and register complaints with the Town, the Aggregation Consultant, the Competitive Supplier, the Electric Distribution Company and the Department. As appropriate, the Town and the Aggregation Consultant will direct customer complaints to the Competitive Supplier, the Electric Distribution Company or the Department.

Participants will continue to be responsible for paying their bills and for providing access to metering and other equipment necessary to carry out Electric Distribution Company operations. Participants are responsible for requesting any exemption from the collection of any applicable taxes and must provide appropriate documentation of such exemption to the Competitive Supplier.

Participants will be notified of any price, product or Competitive Supplier changes as described in Section IV.d Rate Setting & Other Costs to Participants.

Non-participants residing in the Town may join the Program at any time, either through the opt-out process or opt-in process described in Section V.b. Equitable Treatment of All Customer Classes and receive the pricing as described in Section V.b Equitable Treatment of All Customer Classes.

IV.g. Extensions or Termination of Program

In the event of termination, customers would return to the Basic Service of the Electric Distribution Company, unless they choose an alternative Competitive Supplier.

At least thirty days prior to the termination, Program participants will be informed through postings on the Program and Town websites, media releases, social media, a physical posting in Town buildings and a direct mail notification that complies with all Department language access and design requirements. The direct mail notices will be sent in a clearly marked envelope indicating that it contains important information from the Town regarding customer's participation in the Program.

The Town will notify (1) the service list for the docket in which the Department approved the Municipality's plan, (2) the Director of the Department's Consumer Division, and (3) the Electric Distribution Company of the planned termination or extension of the Program. In particular, the Town will provide the Electric Distribution Company notice: (1) 90 days prior to a planned termination of the Program; (2) 90 days prior to the end of the anticipated term of the ESA; and (3) four business-days after the successful negotiation of a new electric service agreement. The Town will also provide notice to the Director of the Consumer Division of the Department 90 days prior to a planned termination, which notice shall include copies of all media releases, municipal office and website postings and other communications the Town

intends to provide customers regarding the termination of the Program and the return of participants to Basic Service. In the event of the termination of the Program, it is the responsibility and requirement of the Competitive Supplier to return the customers to Basic Service of the Electric Distribution Company in accordance with the then applicable Electronic Data Interchange (“EDI”) rules and procedures.

IV.h. Education Plan

Please see **Attachment D** for the Town’s Education Plan.

V. Substantive Requirements

V.a. Universal access

The Plan provides for universal access by guaranteeing that all customer classes will be included in the Program under equitable terms.

All electricity customers in the Town will have access to the Program and they may join the Program either through the opt-out process or opt-in process described in Section V.b. Equitable Treatment of All Customer Classes and receive the pricing as described in Section V.b. Equitable Treatment of All Customer Classes. All Eligible Customers will be automatically enrolled in the Program unless they choose to opt out.

When New Eligible Customers move into the Municipality, they will initially be enrolled in Basic Service with the Electric Distribution Company. New Eligible Customers will receive the Opt-Out Documents and at the end of the opt-out period they will be enrolled in the Program unless they elect to opt-out.

Residential and small business new Eligible Customers will be enrolled at the same price as the existing customers. All other medium to very large business new Eligible Customers joining the Program after Program initiation will be enrolled at a price that reflects market prices at the time of enrollment.

All customers will have the right to opt-out of the Program at any time with no charge. Customers that opt-out will have the right to return to the Program at a price that reflects then-current market prices at the time of their return.

V.b. Equitable treatment of all customer classes

The municipal aggregation statute requires “equitable” treatment of all customer classes. The Department has determined that this does not mean that all customers must be treated “equally,” but rather that similarly situated classes be treated “equitably.” In particular, the Department has

allowed variations in pricing and terms and conditions among customer rate classes to account for the disparate characteristics of those classes.

The Program makes four distinctions among groupings of customers. First, the Program will distinguish among customer rate classes (residential, small, medium and large business) by soliciting separate pricing for each of those classes. The Program will use the same customer rate classes the Electric Distribution Company uses for the Basic Service pricing. While there is no penalty charge for leaving Basic Service, certain business customers may receive a reconciliation charge or credit upon switching from Basic Service to the Program.

Second, the Program will distinguish between customers receiving the default product and customers that affirmatively choose an optional product. Customers selecting an optional product will be charged the price associated with that product.

Third, the Program will distinguish between customers that join the Program through an opt-out process and customers that join through an opt-in process. Customers that join through an opt-out process include a) the initial Eligible Customers and b) new Eligible Customers that move into the Municipality after the Program start-date.

- a. Eligible Customers that enroll at the Program start will receive the Program pricing for their rate class.
- b. For New Eligible Customers moving into the Municipality after the Program start, the Program will distinguish between (1) new residential and small business customers, who will receive the Program pricing, and (2) all other medium, large and very large business customers, who will receive pricing based on then-current market prices at the time the customer joins the Program.

Finally, customers that join by opting in include two types of customers: a) customers that did not become part of the Program initially because they were being served by a Competitive Supplier but then later join the Program; and b) customers re-joining the Program after having previously opted out.

- a. Opt-in customers that were being served by a Competitive Supplier at Program initiation but who later join the Program will be treated the same as new customers: (1) residential and small business customers will receive the Program pricing; and (2) medium, large and very large business customers will pay a price based on then-current market prices.
- b. Opt-in customers that join the Program after having previously opted out will be offered a price based on then-current market prices rather than the Program price. This distinction is designed to limit any incentive for frequent switching back and forth between the Program and Basic Service of the Electric Distribution Company.

As noted below, customers will receive either the Program pricing or prices based on then-current market prices. The Competitive Supplier will determine the then-current market prices, as noted below, based on current wholesale prices and its cost to serve the customer. Any market-based prices will remain effective through the remainder of then-current supply term. If

the Municipality enters into a new ESA, all current customers will continue to be enrolled in the Program and receive the Program prices under the new ESA.

The following is a summary of the enrollment procedures and pricing under various scenarios.

Enrollment Procedures

Enrollment Scenario	Enrollment Procedures
Eligible Customers at Program launch	<p><i>All Customers</i></p> <p>Opt-Out Documents will be mailed to all Eligible Customers at the launch of the Program initiation. After the completion of the 37-day opt-out period, the Competitive Supplier will enroll all Eligible Customers who did not opt out in the default product.</p>
New Eligible Customers identified after Program launch	<p><i>Residential and Small Business Customers</i></p> <p>Opt-Out Documents will be mailed to all identified new Eligible Customers after Program launch. After the completion of the 37-day opt-out period, the Competitive Supplier will enroll all new Eligible Customers who did not opt out in the default product.</p> <p><i>Medium, Large and Very Large Business Customers</i></p> <p>Same as above except Opt-Out Documents will include then-current market-based prices.</p>
Customers who opted out and later want to enroll	<p><i>All Customers</i></p> <p>Customers may enroll in any Program product by contacting Program customer support or the Competitive Supplier, who will provide then-current market-based prices.</p>
Customers on third party supply at Program launch who want to enroll in the Program after their supply contract ends	<p><i>All Customers</i></p> <p>Customers may enroll in any Program product by contacting Program customer support or the Competitive Supplier.</p>

Enrollment Scenario	Enrollment Procedures (Continued)
<p>All customers enrolled in the Program at the start of a new supply term, including any customers currently on market-based prices.</p>	<p><i>All Customers</i> At least thirty days prior to the effective date of a price change or product change under a new supply term, Program participants will be informed through postings on the Program and Town websites, media releases, social media, a physical posting in Town buildings and a direct mail notice containing the new price, term, fees, renewable energy content and applicable price, term, fees and renewable energy content of their current product, in accordance with Section IV.d above. Customers enrolled in an optional opt-in product that will change voluntary renewable energy content in the new supply term (product change) will be informed that they must affirmatively re-enroll in the new optional product (or affirmatively enroll in the default product or other optional product) or they will be returned to Basic Service. Customers enrolled in the default opt-out product or an optional opt-in product that will maintain the same voluntary renewable energy content in the new supply term will be notified that they will be renewed in their current product under the new supply term unless they opt-out.</p>

Pricing Summary

Enrollment Scenario	Pricing
<p>Eligible Customers at Program launch</p>	<p><i>All Customers</i> Program pricing for all product offers.</p>
<p>New Eligible Customers identified after Program launch</p>	<p><i>Residential and Small Business Customers</i> Program pricing for all product offers. <i>Medium, Large & Very Large Business Customers</i> Market-based price based on then-current wholesale prices and Competitive Supplier costs at the time the customer wants to enroll. Competitive Supplier will provide a market-based price that is fixed for the remainder of the then-current supply term.</p>
<p>Customers who opted out and later want to enroll</p>	<p><i>All Customers</i> Market-based pricing based on then-current wholesale prices and Competitive Supplier costs at the time the customer wants to enroll. The Competitive Supplier will provide a market-based price that is fixed for the remainder of</p>

	the then-current supply term.
--	-------------------------------

Enrollment Scenario	Pricing (Continued)
Customers on third party supply at Program launch who want to enroll in the Program after their supply contract ends	<p><i>Residential and Small Business Customers</i> Program pricing for all product offers.</p> <p><i>Medium, Large and Very Large Business Customers</i> Market-based pricing based on then-current wholesale prices and Competitive Supplier costs at the time the customer wants to enroll. The Competitive Supplier will provide a market-based price that is fixed for the remainder of the then-current supply term.</p>
All customers enrolled in the Program at the start of a supply term under a new ESA, including any customers currently on market-based prices.	<p><i>All Customers</i> Program pricing for all product offers.</p>

V.c. Reliability

Reliability has both physical and financial components. The Program will address both through the ESA with the Competitive Supplier. From a physical perspective, the ESA commits the Competitive Supplier to provide all-requirements power supply and to use proper standards of management and operations. The Electric Distribution Company will continue to remain responsible for delivery service, including the physical delivery of power to the customer, maintenance of the delivery system, and restoration of power in the event of an outage. From a financial perspective, the ESA contains language addressing damages and liability. The ESA requires the Competitive Supplier to maintain insurance and the Request for Proposals for a Competitive Supplier will require that an investment-grade entity either execute or guarantee the ESA. Accordingly, the Program satisfies the reliability requirement of the statute.

The Municipality’s Aggregation Consultant will be a Massachusetts licensed electricity broker and has the following technical expertise necessary to operate the municipal aggregation program: history of successful approval of aggregation plans before the Department, multiple years managing active municipal aggregation programs in the state, staff expertise in electricity procurement, education and outreach, customer support, and electricity supply regulations and rules, and ability to provide legal expertise for the aggregation plan and ESA.

VI. Planned Schedule

The planned schedule below is presented for illustrative purposes. The final schedule will be established once the Program has received all necessary approvals.

Day	Action or Event
1	Issue RFP for Competitive Supplier
31	ESA executed between Town and Competitive Supplier
32	Competitive Supplier notifies Electric Distribution Company to prepare retail electric customer data of the Town Begin broad-based public outreach for Program launch, including updating Program website (see Attachment D)
33	Competitive Supplier begins EDI testing with Electric Distribution Company.
44	Competitive Supplier receives retail electric customer data from Electric Distribution Company
48	Competitive Supplier, at its expense, mails Opt-Out Documents to all Eligible Customers, identifying the return date (no earlier than 33 days from mailing) by which the reply card envelopes must be postmarked by Eligible Customers electing to opt-out
51	Eligible customers receive Opt-Out Documents in the mail
63	Competitive Supplier completes EDI testing with Electric Distribution Company.
81	Return date by which Eligible Customers deciding to opt-out must postmark the reply card in a pre-paid envelope to the Competitive Supplier.
85	Competitive Supplier removes all Eligible Customers who opt out from the eligible list and sends “supplier enrolls customer” EDI for all Program participants
85	Earliest date Program enrollments may commence.
90	Service begins as of each customer's next meter read date

Town of Weymouth

You will be automatically enrolled in the Weymouth Community Electricity product, “Weymouth Standard”, unless you affirmatively opt out by mailing and postmarking the enclosed opt-out card by mm/dd/2023.

XXXX XX, 2023

Dear Weymouth Electricity Customer,

The Town of Weymouth is offering a Program called Weymouth Community Electricity. The Program is a carefully designed alternative to your current electricity supply options, which include those offered by National Grid and other third-party electricity suppliers. Through the Program, Weymouth aims to provide electricity products that increase our community’s renewable energy use and reduce carbon pollution.

– Jane Smith, Town of Weymouth

YOUR OPTIONS

Your participation in the Program is voluntary and you can leave the Program at any time without penalties or fees.

1 Automatically enroll in Weymouth Standard, with 10% voluntary renewable energy content

If you take no action, you will be automatically enrolled in the default product, Weymouth Standard, starting on your Month 2023 meter read. The electricity supplier for the Weymouth Community Electricity program is Supplier_Name.

2 Choose to enroll in another Weymouth product with more or less renewable energy content

To choose a different product, call the Program’s electricity supplier, Supplier_Name, at (ARE) SUP-LIER, or submit a request at www.WeymouthCommunityElectricity.com.

3 Choose to continue with National Grid Basic Service

To remain with National Grid Basic Service for your electricity supply, you must opt out. To opt out before being automatically enrolled you must take one of the following actions before **mm/dd/2023**:

Postmark and mail the enclosed opt-out card *or* call Supplier_Name at (ARE) SUP-LIER *or* submit the opt-out form at www.WeymouthCommunityElectricity.com

PRODUCT SUMMARY

	National Grid Basic Service (if you opt out)	Weymouth Basic	Weymouth Standard (automatic)	Weymouth Plus
Price				
Residential	nn.nnn ¢/kWh	nn.nnn¢/kWh	nn.nnn¢/kWh	nn.nnn¢/kWh
Small Business	nn.nnn ¢/kWh			
Large Business	nn.nnn ¢/kWh*			
Voluntary Renewable Energy Content	-	-	Adds 10% voluntary renewable energy (MA Class I RECs)	Adds voluntary renewable energy (MA Class I RECs) to total 100%
Duration	MONTH YEAR to MONTH YEAR *Large Business: MONTH YEAR to MONTH YEAR	Enrollment to MONTH YEAR	Enrollment to MONTH YEAR	Enrollment to MONTH YEAR

The Weymouth Community Electricity cannot guarantee savings compared to National Grid Basic Service for the duration of the Program pricing because future Basic Service rates are unknown.

Program prices could also increase as a result of a change in law that results in a direct material increase in costs during the term of the electric supply contract. Program prices include a commission fee of \$0.001 kWh for the aggregation consultant. Program prices also include taxes which are billed as part of the power supply charge.

Program prices apply to service beginning and ending on the days of the month that your meter is read. Program prices do not include the price that the electric utility will charge for the delivery component of electric service.

Some products contain additional Renewable Energy Certificates (RECs) above that required by MA law. The additional RECs qualify for MA Class I designation from generation located within, or delivered to, New England.

RENEWABLE ENERGY DETAIL

The Commonwealth of Massachusetts requires that all electric supply products include a minimum of 59% renewable energy resources in 2023, 62% in 2024 and 63% in 2025. Some Program products contain additional renewable energy that exceeds the minimum required by the Commonwealth, as shown below.

Name	Year	Required RPS MA Class I	Required Other	Voluntary MA Class I	Voluntary Other	Total
National Grid Basic Service (If you opt out)	2023	22%	37%	-	-	59%
	2024	24%	38%	-	-	62%
	2025	27%	36%	-	-	63%
Weymouth Basic	2023	22%	37%	-	-	59%
	2024	24%	38%	-	-	62%
	2025	27%	36%	-	-	63%
Weymouth Standard (automatic)	2023	22%	37%	10%	-	69%
	2024	24%	38%	10%	-	72%
	2025	27%	36%	10%	-	73%
Weymouth Plus	2023	22%	37%	41%	-	100%
	2024	24%	38%	38%	-	100%
	2025	27%	36%	37%	-	100%

The Renewable Portfolio Standard (RPS) is the minimum renewable energy required each year by the Commonwealth of Massachusetts. MA Class I renewables are from new sources located within, or delivered to, New England, and built after 1997. For details on all required sources, see www.mass.gov/service-details/program-summaries.

PROGRAM DETAIL

- National Grid will continue to deliver the electricity that you use in your home and is responsible for the delivery charges that appear on your monthly bill. If you have questions about the delivery portion of your bill, contact National Grid at 800-322-3223, or by visiting its website at NationalGrid.com.
- The Program is served by [Supplier Name], DPU license number: [DPU license number], [telephone number], [website].
- You can switch to a different Program supply product any time after you've enrolled.
- Budget Plan or Eligible Low-Income delivery rate consumers will continue to receive those benefits from National Grid.
- Solar Electricity Consumers will not be impacted and will continue to receive their net metering credits while participating in the Program.
- You can leave the Program with no associated early termination fees any time after you've enrolled. If you leave the Program, your account(s) will be returned to National Grid Basic Service on the next meter read.
- Product Summary Forms for each Program product are available at www.WeymouthCommunityElectricity.com.
- Exit Terms for Basic Service: There is no penalty charge for leaving National Grid Basic Service, however, Large Business customers may receive a billing adjustment charge or credit.
- Information about Basic Service: visit www.mass.gov/info-details/basic-service-information-and-rates, or call National Grid at 800-322-3223.
- If you are receiving electricity supply from a competitive supplier and believe you have received this opt-out letter in error, you must sign and return the enclosed opt-out card. This will ensure you continue to receive your electricity from that competitive supplier and prevent any possible early termination fees.
- Tax-exempt small business customers participating in the Program must provide a copy of their Tax-Exemption Certificate directly to Supplier_Name via email at Supplier_Tax_email or mail at Supplier_tax_mail in order to maintain their tax-exempt status.
- If you participate in the Program, you will be automatically enrolled at a new price at the end of the contract term unless you inform the Town otherwise. The new price may be higher or lower than the existing price and the voluntary renewable energy content may change. The Town will contact you no later than 30 days before each automatic renewal to notify you of your supply options.

Town of Weymouth

Electric Supply Product Summary: Weymouth Standard *From Weymouth Community Electricity*

You will receive an electric supply product from Weymouth Community Electricity. Your electric utility will continue to deliver the electricity you use to your home.

Price	XX.XXX cents per kWh. This does not include the price that your electric utility will charge you for the delivery component of your electric service.
Term	The above price will remain constant from enrollment to [MONTH] [YEAR].
Early Cancellation Fee	There is no cancellation fee. You may leave this product at any time after you have enrolled with no fee or penalty.
Automatic Renewal	You will be automatically enrolled at a new price at the end of the contract term unless you inform the Town otherwise. The new price may be higher or lower than the existing price and the voluntary renewable energy content may change. The Town will contact you no later than 30 days before each automatic renewal to notify you of your supply options.
Renewable Energy Content	The Commonwealth of Massachusetts requires that all electric supply products include a minimum of 59% renewable energy resources in 2023, 62% in 2024 and 63% in 2025. This product includes 69% renewable energy resources in 2023, 72% in 2024 and 73% in 2025, amounts that exceed the minimum requirement.
Rescission Period	If you received this form as part of an automatic enrollment notice, you have until the deadline indicated on the notice to opt-out and not be enrolled. You may leave this product at any time after you have enrolled with no fee or penalty.
Competitive Supplier Information	Weymouth Community Electricity is a Program of the Town of Weymouth: www.WeymouthCommunityElectricity.com . The Program is served by [Supplier Name], DPU license number: [DPU license number], [telephone number], [website]. [Supplier Name] is only responsible for the electric generation portion of your bill.
Electric Utility Information	National Grid will continue to deliver the electricity that you use in your home and is responsible for the delivery charges that appear on your monthly bill. If you have questions about the delivery portion of your bill, contact National Grid at 800-322-3223, or by visiting its website at NationalGrid.com .

The Massachusetts Department of Public Utilities recommends that consumers visit the Energy Switch website to view the broad range of available electric supply products, including your electric utility's basic service price. You can visit the website at <http://energyswitchma.gov>.

Attachment D - Education Plan

The following describes the Education Plan for the Town of Weymouth’s (the “Town”) to fully inform and educate potential participants about their opportunities, options and rights for participation in the aggregation program (“Program”). Eligible Customers (as defined in Section I of the Plan), including Eligible Customers with limited English language proficiency and disabilities, must be informed that they will be automatically enrolled in the Program and that they will have the right to opt-out of the Program without penalty. The Education Plan has the following parts:

1. Program Launch Outreach & Education
2. On-Going Outreach & Education
3. Approach to Overall Education & Outreach

1. Program Launch

The Town has prepared a marketing plan and timeline that identifies the steps that it will take to implement the broad-based public education efforts and send out the opt-out documents (“Opt-Out Documents”). The schedule is designed to work towards the estimated date when Eligible Customers will be enrolled in the Program.

From estimated date that Electricity Supply Agreement is executed (i.e. Day 31 per Exhibit 1, Section V. Planned Schedule)		
Action	Start Day	Finish Day
A. Launch Program website	Already Complete	-
B. Update Program website	32	Ongoing
C. Work with local media resources	32	80
<ul style="list-style-type: none"> • <i>Issue press release/contract announcement to Newspapers and TV Stations</i> 	35	37
<ul style="list-style-type: none"> • <i>Press releases expected publication in Newspapers Radio and TV Stations</i> 	38	50
D. Active social media outreach	35	80
E. Presentations	35	80
<ul style="list-style-type: none"> • <i>Presentations to community groups as desired</i> 	35	80
<ul style="list-style-type: none"> • <i>Community-wide presentation after Opt-Out Documents mail</i> 	55	-
F. Distribute Program details to local groups including marketing materials/brochure	35	50
G. Program customer support line & Competitive Supplier phone line	44	Ongoing
H. Mail postcard to all Eligible Customers	44	-
I. Mail Opt-Out Documents to all Eligible Customers	48	0
J. Earliest date Program enrollments may commence.	85	

Sections 1.A through 1.I provide detail on each of the outreach elements identified in the table

above.

1.A Launch Program Website

All information regarding the Program will be posted on the Program website. The Town's website will include, in a prominent location, basic information about the Program, including a municipal contact, with a link to the Program website. For the duration of the Program, the Town commits to ensuring that all Plan documents, including the approved Plan, Education Plan, Opt-Out Documents and education materials, will remain available and updated on the Program website. The Program website has links to the website of the Electric Distribution Company, the Massachusetts Department of Energy Resources (DOER), the Massachusetts Department of Public Utilities (DPU), and the Competitive Supplier. The current supply prices for each Program product can be found at the Program website, www.WeymouthCommunityElectricity.com.

1.B. Update Program Website

The Program website will be updated to include information on the product options, including pricing, term length, renewable energy (i.e., “RECs”); as well as enrollment, opt-up and opt-out forms and phone numbers.

1.C. Press Release and Work with Local Media Resources

The Town will develop press releases to provide to local media resources, including newspapers and public access TV.

- Area Newspapers: The Town will work with the *The Patriot Ledger* <https://www.patriotledger.com/> to disseminate accurate and timely information about the Program. As part of this targeted outreach to these papers, the Town may seek a meeting with the editorial board to establish a good foundation for continued dialogue over the course of the contract. Other newspaper outlets may include other local publications including the *Braintree Forum & Observer* <https://www.wickedlocal.com/braintreeforum/>. These newspapers are easily accessible to community members and able to disseminate accurate and timely information about the Program.
- Local Public Access Television: The Town intends to work with *WETC* <https://weymouth.tv/about-wetc/>. The station can record interviews about the Program and PSAs for upcoming meetings. This station was chosen due to its affiliation with the Town, making it a well-known source of local news.
- Municipal Staff Interviews: Develop Q&A Scripts and prepare municipal staff or volunteers for interviews.

1.D. Active Social Media Outreach

Boost all traditional media coverage on social media platforms, with the goal of driving traffic to the Program website. In concert with the communication leads of the Town, develop a campaign of planned tweets and Facebook posts, timed to coincide with important milestones in order to keep Eligible Customers informed, particularly those that may not interact with traditional media on a regular basis. Draft content and graphics to accompany the posts, to be made by municipal staff. These accounts may include: *Town of Weymouth page on Facebook*. This outlet was selected as well-followed or subscribed channel by residents and businesses for official Town news.

Monitor various channels such as Facebook and Instagram for relevant conversations and questions about the Program. Draft responses to comments and questions and utilize social media as a critical tool in engaging with members of the community. These accounts may include: *Weymouth Community Page/Weymouth Connect/Everything Weymouth* on Facebook.. These were selected as some of the current popular social media groups where community discussions occur.

1.E. Presentations

Provide at least one community-wide presentation and connect with local groups to (a) promote general awareness of the Program and (b) target education to low-income customers, seniors and customers with limited-English capabilities or disabilities.

- *Local Groups*: Some of the local groups identified to date which the Town may choose to work with include:
 - *American Legion* (<https://www.legion.org/>) in Weymouth were chosen as their programs work with families and children in need as well as provide veterans assistance. It was chosen to help the Program connect with veterans, many of whom may be in the senior citizen community;
 - *Back River Watershed Association* (<https://backriverwatershed.org/>) the Association works to preserve, protect and promote all the greatness of the natural heritage of the Back River and its watershed in Weymouth, Hingham, and parts of Abington, Rockland and Braintree. The group can help connect with community members interested in the environmental benefits of the program;
 - *Weymouth Elder Services* (<https://www.weymouth.ma.us/elder-services>) is the Town's organization to support senior citizens in the community and was chosen to help the Program connect with that demographic;
 - *Quincy Community Action Programs* (<https://www.qcap.org/about-qcap/>) is the community action agency serving Weymouth, with a mission to “dedicated to reducing poverty and helping low-income residents achieve financial stability and

security.” The group has a long-standing energy programming and was selected to help connect with the low-income population;

- *Rotary Club of Weymouth* (<https://portal.clubrunner.ca/5381/>) The Rotary Club of Weymouth is a community-focused organization dedicated to serving the local area through Rotary initiatives. It is inclusive and encourages individuals of any gender, race, or beliefs to join and contribute to its mission of community service. It was chosen to help connect with general awareness of the program; and
 - *Weymouth Garden Club* (<https://weymouthgardenclub.com/>) was established in 1931, aims to promote gardening interest, provide instruction, and enhance the beauty of Weymouth. Over the years, its goals have evolved to encompass environmental awareness and conservation issues, reflecting a commitment to being caretakers of the earth. Like the Back River Watershed Association, the group can help connect with community members interested in the environmental benefits of the program;
- *Town Council Meetings:* Present or provide materials for the Town Council meetings and any constituent meetings they may have.

1.F. Distribute Program details to local groups including marketing materials/brochure

Many groups may have a natural interest in promoting awareness about the Program and can be provided with electronic and hard-copy materials with reference information for the Program.

Distribute to key locations such as Municipal offices, *Tufts Library* and *Weymouth Elder Services* and offer to local groups identified in 1.E. These locations were selected as high traffic areas where community information is often posted, and the Senior Center can help reach the senior population.

1.G. Program Customer Support Line & Competitive Supplier Phone

Establish customer helplines with the Competitive Supplier and Aggregation Consultant to answer customer inquiries. Help line will be maintained for the duration of the Program.

1.H. Mail Postcard to all Eligible Customers

A postcard with municipal branding establishes that there is a community-sponsored Program and increases the likelihood that the recipient engages with the more detailed Opt-Out Documents.

1.I. Mail Opt-Out Documents to all Eligible Customers (Exhibit 1, Attachment B)

Opt-Out Documents will be mailed to every Eligible Customer, and include the Opt-Out Notice, the opt-out reply card, postage-paid return envelope and Language Access Document. Eligible Customers will have 33 days from the date of mailing the Opt-Out Documents to return the reply

card if they wish to opt out of the Program and the Opt-Out Notice shall identify the return date by which the reply envelope must be mailed and postmarked. The Competitive Supplier shall allow an additional 3 days from the return date for receipt of the opt-out replies before initiating automatic enrollments in the Program (i.e. 37 days total from mailing before enrollment). See Section IV.b.ii under Operations in the Plan for additional detail on the content of the Opt-Out Documents.

2. Ongoing Outreach and Education

The Town will continue outreach and education for customers after enrollment in the Program, particularly with respect to changes in offerings and prices, which will be posted on the Program website that is linked to the website of the Town. The types of information the Town will communicate through the continuing education efforts include: revisions to programs and prices; responses to frequently asked questions; Program goals and performance; rights and procedures for Program participants; contact information for customer inquiries, details regarding the Program's electric supply and renewable attributes, and energy source disclosure labels.

2.A. Revisions to Products, Prices & Supplier

All changes in prices, voluntary REC content or Competitive Supplier for Program products will be communicated through postings on the Program and Town websites, media releases, social media, a physical posting in Town buildings and a direct mail notice. The communication will be made at least thirty days prior to the effective date of the price or voluntary REC or Competitive Supplier change, and Program participants will be informed of the new price, term, fees, renewable energy content and the applicable price, term, fees, and renewable energy content of their current product, in compliance with all Department language access and design requirements, and will be informed that they may opt out of the Program at any time and return to Basic Service at no charge. Please see Section IV.d. Rate Setting & Other Costs for Participants in the Plan for additional detail regarding the content of the direct mail notice and customer participation.

2.B. Responses to Frequently Asked Questions

The Town will update the Program website to add or revise content that will address frequently asked questions. The frequency of updates will be based on Town assessment of need.

2.C Program Goals & Performance

Program goals and performance will be communicated via updates to the Program website. Additionally, the Program may include updates on goals and performance as part of any Change Documents, defined in Section IV.d Rate Setting & Other Costs for Participants in the Plan, including the Renewal Notice. Any updates on the Program's financial performance will include appropriate disclaimers per Section 3.B below. The frequency of updates to the Program website will be based on Town assessment of need. The Program may also conduct awareness campaigns for goals to increase participation in optional products that have more renewable energy resources than the minimum amount required by the Commonwealth. Such campaigns will

utilize flyers and bookmarks, lawn signs, social media postings, participation in local events and virtual and in-person meetings. The frequency of such campaigns and methods to be used will be determined by the Town based on its assessment of the need and optimal timing.

2.D Rights and Procedures for Program Participants

The Program website will document the rights of Program participants, including the right to opt-out at any time without penalty, and will document the procedures for enrolling, changing products and opting-out. Additionally, the Program website will house a copy of the Plan for the public to view all of the rights and procedures contained therein. Rights and applicable enrollment procedures will be communicated:

- To Program participants, when the Program transitions to a new supply term, via the Renewal Notice, defined in Section IV.d of the Plan; and
- To New Eligible Customers, via the Opt-Out Notice, defined in Section IV.b.ii of the Plan (see also **Exhibit 1, Attachment A** for exemplar Opt-Out Notice).

2.E Contact Information for Customer Inquiries

The Program website will provide phone and email contact information for customer inquiries. Additionally, contact information for customer inquiries will be communicated:

- To Program participants, when the Program transitions to a new supply term, via the Renewal Notice, defined in Section IV.d of the Plan; and
- To New Eligible Customers, via the Opt-Out Notice, defined in Section IV.b.ii of the Plan (see also **Exhibit 1, Attachment A** for exemplar Opt-Out Notice).

2.F. Details Regarding the Program's Electric Supply and Renewable Attributes

The Program website will provide information on the price, term length and renewable energy content of the Program products as both text on the Program website and as Product Summary Forms hosted on the Program website (see **Exhibit 1, Attachment A** for exemplar Product Summary Forms). Additionally, such information will be communicated:

- To Program participants, when the Program transitions to a new supply term, via the Renewal Notice, defined in Section IV.d of the Plan; and
- To New Eligible Customers, via the Opt-Out Notice, defined in Section IV.b.ii of the Plan (see also **Exhibit 1, Attachment A** for exemplar Opt-Out Notice).

New Eligible Customers moving into the Municipality after Program initiation initially will be enrolled in Basic Service with the Electric Distribution Company. New Eligible Customers subsequently will receive the same Opt-Out Documents as other Eligible Customers.

2.G. Quarterly Energy Source Disclosure Labels

As part of its ongoing service, the Town will provide the quarterly disclosure information required by G.L. c. 164, § 1(F)(6) and 220 C.M.R. § 11.06. Please see Section IV.b.iv under Operations in the Plan regarding the Town's request for a waiver for an alternative disclosure strategy, which would utilize notices on the municipal and Program website, social media, physical postings at the Town's Library branches, Counsel on Aging, and the Town's bulletin

board and posting on the Town’s Local Access TV station.

3. Approach to Overall Education & Outreach

The outreach efforts described in this section apply to the Program launch as well as on-going outreach.

3.A Enrollment and Pricing

Customers will be informed of the various enrollment and pricing procedures both at and after Program initiation. For a summary of the enrollment procedures and pricing under various scenarios, please see Section V.b. Equitable Treatment of All Customer Classes in the Plan.

3.B Required Disclosures & Notices

Savings Not Guaranteed - Any Program materials which include the Town’s goals of lower cost electricity or cost savings, or which reference price savings, price stability, economic benefits or a like term, will also include in each instance a disclaimer that the Town cannot guarantee that the Program will provide customers with prices lower than the Electric Distribution Company's Basic Service rate that may be in effect at any point of time during the term of any supply contract entered into by the Town.

Automatic Enrollment - All customer education materials (i.e., announcements, slides, scripts presentations and the Opt-Out Notice) will disclose to Eligible Customers that they will be automatically enrolled in the Program unless they exercise their right to opt-out.

Low Income Discounts Not Affected - Program materials will also include a statement, where appropriate, that discounts provided by the Electric Distribution Company to low-income customers are not affected by the Program.

Competitive Supply Customers – To the extent the Town's Program materials seek to inform competitive supply customers about the Program, it will disclose that such customers may be subject to penalties or early termination fees if they switch from competitive supply to the Program during the term of a contract with a competitive supplier.

Termination of the ESA - In the event an ESA is terminated as the result of a dispute over a Regulatory Event or New Taxes, and the Town does not obtain a replacement ESA, the Town will follow the procedures for termination of the Program under Section IV.g Extensions or Termination of the Program in the Plan. In the event the Town obtains a replacement ESA it will follow the procedures for termination of the existing ESA and extension of the Program under Sections IV.d Rate Setting & Other Costs to Participants and IV.e Method of Entering and Terminating Agreements with Other Entities of the Plan.

3.C Outreach to Persons with Disabilities or Limited English Proficiency

The Town will use its Program notifications, customary media outlets and Program website to

reach and educate all residents about the details of the Program, including those with limited English proficiency.

As detailed in Section 3.B, all price and product change notifications will be in compliance with all Department language access and design requirements.

Persons with Disabilities - In addition to the Opt-Out Documents, the Town will use the Program website as well as posters and handouts to ensure effective communication with all Eligible Customers. To the extent possible public education events will be held in accessible spaces or, in the alternative, will be available on-line for the mobility impaired. Outreach efforts may be communicated in print and audio formats to provide access to both the hearing and visually impaired.

The Program website will include an Americans with Disabilities Act (ADA) commitment statement asking visitors to contact us to help resolve any accessibility issues on an ad hoc basis.

Assistive technologies such as TTY (TeleType) for the hearing impaired will be integrated into the public outreach materials to accommodate individuals with hearing impairments, such as the reference to the TTY number included in the Language Access Document. Price charts on the Program website will use text rich formats and .pdf files, rather than .jpeg and .png images, so that the charts can be read aloud by a computer. Images will also employ alternate text options so that every page on the website can be read out loud by a computer, leveraging assistive technology.

In addition, the Program website will use WordPress, which conforms with web content accessibility guidelines and is actively working to make their Content Management System ADA compliant.

Persons with Limited English Proficiency - At the launch of the Program, the Town will include in its Opt-Out Documents a Language Access Document in the language of limited-English speaking residents. The Language Access Document includes a message in 26 languages encouraging Eligible Customers to have the notification translated and providing the Program website address and toll-free number. The Program website will have translation services that can translate the website text and Program information into more than 100 languages. The website is the primary vehicle for communicating Program information, both before and after the Program launch.

The Town will also work with individuals who need language support as those needs are identified. The Town has assessed the percentage of residents within the Town that speak English “less than very well” and that speak another language as their primary language. No languages are represented by more than 3% of the population according to the 2021 American Community Survey 5-year estimate, Table C16001: Language Spoken at Home by Ability to Speak English for the Population 5 Years and Over. The table can be accessed at

the following link:

<https://data.census.gov/table?q=language+spoke+at+home&g=060XX00US2502178972&tid=ACSDT5Y2021.C16001>. See full data in Attachment D-1, based on a population of approximately 57,670 residents.) However, the Town consulted the interactive language map published by the State of Massachusetts at <https://mass-eoeea.maps.arcgis.com/apps/webappviewer/index.html?id=dfdfbf9c109647fc9601f7524c1fd9f4> and found that in the homes of public school students, Portuguese, rather than English, is spoken by over 6% of students' households in three of the Town's four ZIP codes (based on over 6,000 households, see Attachment D-1 for original data).

Based on this data, the Town intends to make Program information available in English for all direct mailings, and the Town will translate the direct mailings into Portuguese and post those documents to the Program website. Additionally, non-English speaking customers can access the Program website which includes a translation function that translates materials on the website into over 100 different languages.

The above-described outreach efforts to educate all customers shall also apply to the Town's ongoing outreach and education as described in Section 2 above.

3.D Limitations on Supplier Communications

The Competitive Supplier may only communicate with Program participants and/or use the lists of Eligible Customers and Program participants to send Department-approved educational materials, Opt-Out Documents, or other communications essential to the operation of the Program. Such lists may not be used by the Competitive Supplier to market any additional products or services to Eligible Customers or Program participants.
