TOWN OF WEYMOUTH HISTORICAL COMMISSION

LIST OF STRUCTURES COVERED UNDER DEMOLITION DELAY ORDINANCE AS OF MAY 1, 2003

Richard M. Pattison, Chairman

Town of Weymouth
Historical Commission

Demolition Delay Listing of Homes

The inclusion of houses on this list makes it subject to Section 7-201 Demolition of Buildings of the Weymouth Code of Ordinances. This is commonly referred to as the demolition delay ordinance.

The town adopted this regulation in 1997 in order to preserve and protect historic properties by requiring up to a six month delay in any request to demolish an historically significant building. The time delay allows the Commission to determine if the building is significant and whether alternatives to demolition are available and feasible. Since the regulation has been in place all buildings reviewed by the Commission have been allowed to be demolished.

Property included in this list is because of its age, architectural style, or historical significance.

For further questions or information contact James Clarke, Planning Director at 781-340-5015.

Weymouth Town Ordinance Pertaining to the Demolition List:

SECTION 7-201 DEMOLITION OF BUILDINGS

A. Purpose

The purpose of this chapter is to protect the historically or architecturally significant buildings or markers in the town and to encourage owners of such properties to seek out persons who might be willing to purchase, preserve, rehabilitate or restore such buildings and markers rather than demolish them.

B. Definitions

The following words used in this ordinance, unless the context otherwise requires, shall have the following meanings:

COMMISSION - The Weymouth Historical Commission.

DEMOLITION - Any act of pulling down, destroying, removing or razing a building or marker; or commencing the work of total or substantial destruction with the intent of completing the same.

HISTORICALLY SIGNIFICANT BUILDING OR STRUCTURE -Any building or portion thereof which:

1. In whole or in part was built 100 or more years prior to the date of the application for the demolition permit or is of unknown age;
2. Is importantly associated with one or more historic persons or events or with the architectural, cultural, political, economic or social history of the town, the Commonwealth of Massachusetts or the United States of America; or
3. Is historically or architecturally important by reason of period, style, method of building construction or association with a particular architect, either by itself or in the context of a group of buildings or structures.

PROPERTIES - Shall include buildings, structures, bridges, historical sites, etc.

C. Annual Reporting of Historical Properties or Significant Buildings

- 1. The historical commission shall compile and file with the mayor, the department of community planning and development, inspector of buildings and director of public works, on an annual basis, a current list of all known historical properties currently listed on the National Register of Historic Places or properties researched and found by the commission to be historically or architecturally significant. Said list shall be disseminated to all new owners of historical properties or significant buildings on an annual basis.**

2. **The owner shall have 30 days to appeal said determination by the commission which shall hold a public hearing with 14 days' advance written notice to the owner before a final determination is made by the commission.**

D. Procedure

1. The mayor, the director of community planning and development, the inspector of buildings and the director of public works shall notify the commission of any such projects which might result in the demolition of any property that is included on the list. Within seven days after receipt of an application for demolition, the Inspector of buildings shall notify in writing the Historical Commission of said application.
2. No demolition permit shall be issued except by the following procedure:
 - (a) Within 30 days following receipt of the application from the inspector of buildings, the commission shall conduct a public hearing and shall give public notice thereof by publishing notice of the time, place and purpose of the hearing in a local newspaper at least 14 days before said hearing and mail by certified mail, with return receipt requested, a copy of said notice to the applicant.
 - (b) If, after such hearing, the commission determines that the demolition of the significant building would not be detrimental to the historical or architectural heritage or resources of the town, the commission shall so notify in writing the inspector of buildings within seven days of such determination. Upon receipt of such notification or after the expiration of seven days from the date of the conduct of the hearing, if he has not received notification from the commission, the inspector of buildings may, subject to the requirements of the state building code and any other applicable laws, ordinances, rules and regulations, issue the demolition permit.
 - (c) If the commission determines that the demolition of the significant building would be detrimental to the historical or architectural heritage or resources of the town, such building shall be considered a preferably preserved significant building.
 - (d) Upon determination of the commission that the significant building which is the subject of the application for a demolition permit is a preferably preserved significant building, the commission shall so advise in writing the applicant and the inspector of buildings within seven days of said hearing, and no demolition permit will be issued for six months after the date of such determination by the commission.
 - (e) Notwithstanding the preceding sentence, the inspector of buildings may issue a demolition permit for a preferably preserved significant building at any time after receipt of written advice from the commission to the effect that either:
 - (i) The commission is satisfied that there is no reasonable likelihood that either the owner or some other person or group is willing to purchase, preserve, rehabilitate or restore such building; or

- (ii) The commission is satisfied that for six months the owner has made continuing, bona fide and reasonable efforts to locate a purchaser to preserve, rehabilitate and restore the subject building, and that such efforts have been unsuccessful.
- (iii) Notwithstanding any of the foregoing, the inspector of buildings shall issue the demolition permit upon expiration of 183 days from the original date of application.

E. Emergency Demolition

Nothing in this ordinance shall restrict the Inspector of buildings from ordering the demolition of any building in the event of an imminent danger to the safety of the public.

F. Enforcement

1. The inspector of buildings and the commission are authorized to institute any and all actions and proceedings as they may deem necessary and appropriate to obtain compliance with the requirements of this section or to prevent a threatened violation thereof.
2. No building permit shall be issued with respect to any premises upon which a significant building has been voluntarily demolished in violation of this ordinance for a period of one year after the date of such demolition. As used herein, "premises" includes the parcel of land upon which the demolished building was located.
